DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, there is no spatial nexus set forth between the evaporating surface and the oscillating portion. Specifically, lines 8-12 of the claim, do not require any connection to the oscillating portion. Thus, these lines are confusing with respect to line 15 of the claim, wherein the evaporating surface is said to be 'oscillating'.

Claim Objections

Claim 1 is objected to because of the following informalities:

In claim 1, line 3, the use of the reference numeral "3" in the claim is objected to as reference numerals are permitted in claims only within parentheses.

Appropriate correction is required.

Response to Arguments

Applicant's arguments, see the paper, filed 7/12/07, with respect to claims 1-8 have been fully considered and are persuasive. The rejection of these claims has been withdrawn. However, a rejection under 35 USC 112, 2nd paragraph has been applied to claim 1.

Allowable Subject Matter

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 8 is allowed.
